Summary

Computer Science student leveraging 5+ years of teaching experience to bring strong problem-solving, communication, and analytical skills to development roles. Demonstrated practical programming expertise through multiple production-ready applications, including a Django-based inventory management system. Seeking a Software Engineering position to apply my technical skills and passion for continuous learning.

Professional Experience

Music Instructor | Cappella Music Academy | Tacoma, WA

Jun 2019 - Present

- Developed and maintained custom curriculum for 20+ students, achieving 80% long-term retention
- Created and implemented Student Log CLI application to enhance lesson planning and progress tracking
- Demonstrated ability to break down complex concepts into understandable components
- Adapted teaching methods to accommodate diverse learning styles and goals

Warehouse Manager | Construction Components | Puyallup, WA

Dec 2018 - Jun 2019

- Managed inventory logistics and coordinated with installation teams
- Implemented efficient organizational systems for tracking materials and equipment

Lead Barista/Production Asst. | Sisters Coffee Company | Sisters, OR Manager | Woodland Espresso | Puyallup, WA

Sept 2016 - Apr 2018 Jan 2015 - Sept 2016

Education

BS in Computer Science

Expected Dec 2025

Western Governors University

BA in Business Administration

George Fox University

Graduated Apr 2014

Technical Skills

Languages: C/C++, Python, Rust, JavaScript

Web Technologies: HTML/CSS, Bootstrap, Django, Flask

Databases: PostgreSQL, SQLite

Developer Tools: Git, Vim, Command Line, Linux

Projects

Student Log CLI Application

- Developed a CLI tool in C with SQLite integration for tracking student progress and lesson plans
- Implemented data persistence and efficient querying for managing student profiles
- Used modular design principles for maintainable and scalable code

Inventory Management System

- Built and deployed a production-ready web application using Django and PostgreSQL
- Implemented full CRUD functionality for inventory tracking
- Designed responsive UI with Bootstrap and custom CSS
